

TITLE: CNC Machine Operator – 1st and 2nd Shifts
COMPANY: Laser North, Inc.
LOCATION: Baraga, Michigan
APPLICATION DEADLINE: Position open until filled

CNC MACHINE OPERATOR – 1st and 2nd SHIFTS. Laser North, Inc. (LNI) of Baraga, Michigan is growing and looking to hire additional highly qualified team members to both the first and second shift. LNI is a laser cutting and fabrication specialist. As an LNI CNC Machine Operator, you are dependable and efficient in the production of our product while maintaining the highest level of safety and quality in our industry. To succeed, you must have previous CNC machine experience, be highly motivated with an exceptional work ethic, a strong drive to solve problems, and able to read and understand prints/instructions. You possess excellent and effective organization and communication skills, as well as a commitment to superior customer service.

RESPONSIBILITIES.

- Work closely with the entire LNI team on a daily basis to meet customer demand/solve problems.
- Maintain effective CNC machine operation to assure on-time delivery of our product.
- Read and understand prints and instructions.
- Perform general equipment preventative maintenance.
- Assures Laser Department is organized, clean and “Tour Ready” at all times.
- Assist other production areas as needed.
- Adhere to company quality and safety standards.
- Collaborates effectively with the entire LNI team to assure clear communication.

WAGE. \$15 - \$18 per hour (plus 2nd shift premium), based on experience.

SCHEDULE. 1st shift (works 7am – 3:30pm); 2nd shift (works 3pm – 11pm)

BENEFITS OFFERED. Laser North places great value in the CNC Machine Operator and offers benefits of a performance/success-based bonus, paid time off, paid holidays and safety training.

MINIMUM & PREFERRED QUALIFICATIONS.

- 1 year of experience as a CNC Machine Operator, required.
- Ability to balance a sense of urgency while maintaining the highest level of safety, quality and efficiency in operating CNC machines.
- Ability to schedule and prioritize machine programs and material flow.
- Ability to identify material savings and implement efficient use of materials.
- Knowledge of inventory, quality control and able to perform quality inspections.
- Ability to read and understand prints/instructions.
- Ability to follow safe work practices and proper lifting techniques.
- Ability to work with computers, machine controllers and learn new programs; G-Code experience a plus.
- Possess a strong attention to detail and an ability to solve problems.
- Reliable transportation and impeccable attendance record, required.
- Excellent time management, organization and communication skills.
- A self-driven collaborative style that makes you an asset to our team.
- A desire to continually increase your knowledge of the industries we serve and products, services and processes our company can produce.
- Unrestricted right to work in the United States, required.

NO PHONE CALLS or WALK-INS PLEASE.
